“Durable and strong ergonomic design with high comfort”

CHAIR FOR TOWER WALL ©

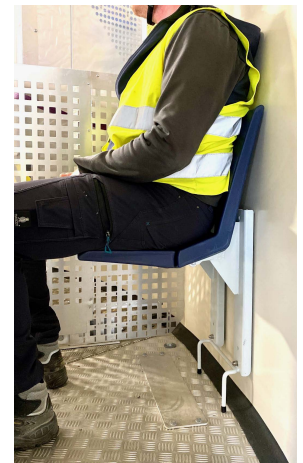

The Chair is designed by Engiso as an excellent ergonomic chair for easy installation on tower walls.

KEY FEATURES

- 1 Easy mounted with 2 pcs. of V-MAG 340© magnets.
- 2 Seat and back shells of recycled blow moulded HDPE with additives for UV colour-fastness and fire resistance.
- 3 Durable and strong ergonomic design with high comfort.
- 4 Seat retraction using gravity (Counter weight) and POM (polyacetal) bushings at joints ensure smooth trouble free operation.

Supporting structure made of galvanized steel

“Engiso consists of a mixture of project managers, engineers among others with several years of know-how from the wind sector. Our finest task is to deliver perfectly fitted solutions that exceed your demands. Our team brings new perspective and propels the ideas to meet the demands of the future.”

Engiso provide many types of solutions that are easily and readily deployed into current designs, businesses, systems or processes. They can be used immediately once installed or implemented. In such cases, the purpose of using a turnkey solution is to avoid the hassle and headache of setting up your own in-house solution or resources. Engiso can deliver an "All inclusive" solution tailored to the customer's exact needs or requests.
